

2015 Canter Clinic

3 Days with Don Jessop

ONLY 10 Spots Available!

Clinic Focus: Learning to see what's really going on inside the mind of your horse. Behavior Science and Leadership. Plus - advancing both yours and your horses skill level on the ground and riding including basic to advanced liberty and finesse, and of course. Canterng!

Take all your challenges and master them. Take all your dreams and map the pathway to achieve them. Take all your fears and conquer them.

Skills you will need:

- ➔ Ability to ride your horse at the walk, trot and sometimes canter with a saddle and bridle or hackamore.
- ➔ Ability to work well in a group of people to support, encourage and maintain a safe atmosphere for all horses and people..

DAY 1: Control and Confidence
DAY 2: Leadership and Connection
DAY 3: Refinement and Group Games

***Special note:** As with all my clinics. There may be some things you or your horse don't feel ready for. I want to help you start the process of breaking past some of those limitations but you are not required to do anything we set out to do in the clinic. You and your horse's safety are my number one outcome.*
